iMovie Versions

I've used them all

- * iMovie 3 - Jan 03
 - * iMovie 4 - Jan 04
 - * iMovie HD 5 - Jan 05 - adds HD capability
 - * iMovie HD 6 - Jan 06 - requires G4+
- Similar to each other and to Apple's Final Cut Express (\$200)
- * iMovie '08 - Aug 07 - a completely different program - requires G5+

Input-Output Formats

Also Divx and WMA

Add Content

- * Digital Video Recorder (DVR)
- * QuickTime videos
- * Still photos
- * Music files, sound effects & narration
- * Titles, transitions & effects

Export

- * Back to the camcorder
- * iDVD
- * QuickTime movies
(Email, web, CD-ROM, full resolution)
- * Garageband
- * YouTube video (iMovie '08)

Presentation Plan

- * Show a 5 minute QuickTime movie
 - * 320x240 - Exported from iMovie 05
- * Show how it was made in iMovie
- * Questions & Answers

Basic Steps

- * **Import camcorder footage, arrange clips, title and edit (trim) - Storyboard**
- * **Insert stills & QT movies**
- * **Insert music, sound effects & narration**
- * **Insert titles & transitions; apply effects**
- * **Create chapters (for DVD)**
